IT WILL BE A BIG CITY.

BROOKLYN ANNEXATION BILLS NOW BEFORE GOVERNOR FLOWER.

MUNICIPAL TERRITORY WILL BE NEARLY DOUBLED WHEN THEY BECOME LAWS-IN-CREASED BURDENS ON CITY DEPARTMENTS.

The territorial extent of Brooklyn will be practically doubled if the bills now in the hands of Gov-mor Flower, awaiting his signature to become laws, The town of Flatbush is already the Pwenty-ninth Ward, under the bill which was signed last week. The towns of New-Utrecht and Gravesend will be the Thirtieth and Thirty-first wards respectively by the terms of the bills before the ATHE PROPOSED ARRANGEMENT FOR HAVvernor. The bill providing for the annexation of the remaining town of Flatlands has the special ision that it is not to become part of the city until January 1, 1896, owing to the complication that would be caused in the consolidation of the debts of city and county if the complete annexation of the towns to the city took place at once. By the wiping out of these four towns the city and county will be comprised within the same boundaries. A large extent of water-front will be added, stretching from Gowanus Bay along Bay Ridge, through the Narrows, along Coney Island and up Jamaica Bay, past Canarsie, where the water-front of the Twenty-sixth Ward will be reached. The territory of the four towns embraces about twenty-four square miles, while the city heretofore has covered twenty-nin The addition in population is not great. According to the State census of 1892 the respective populations of the city and county towns

swelled this number to considerably over £000,000.

The effect of the consolidation will be to wipe out the Board of Supervisors, and the Aldermen will meet once a year as a Board of Supervisors, as they do in New-York. But in order to effect this the Board of Aldermen will have to be chosen by wards, according to the old system. The offices of Supervisor-at-Large, County Treasurer and County Auditor will be abolished as unnecessary, and the saving in salaries is estimated at nearly \$100,000 a year. A large number of minor town offices will so be abolished. But the city will have to largely increase its expenditures for fire and police pro

increase its expenditures for fire and poince protection, for the care of streets and sewers and for school purposes. It is expected that a great influx of population in the annexed district will occur. The city will secure as a part of its territory the thriving villages of Bensonhurst, Bath Beach, Bay Ridge, Parkville and Unionville. The Government property at Fort Hamilton will come within the city limits. The shores of Gravesend Bay in New-Utrecht, of the Atlantic Occan in Gravesend, and of Jamaica Bay in Flatlands will be cared for by city authority. The steam and electric radiocals running to Coney Island will come under the provisions of law making the fare 5 cents in the city limits. Many acres heretofore given up to corn, pountees and garden veretables will speedily be turned into city lots. The forests which still stand on some of the old Dutch farms will have to go down before the building of houses for the new population. Many ndies of new streets will have to be built and an enlargement of travelling facilities for the new territory will speedily be required. There will be about \$55,0000 added to the taxable value of real estate in the city by consolidation, and this will soon be doubled by the increased value of the outlying territory from the annexation to Brooklyn.

The last addition to Brooklyn territory by an-

value of the outlying territory from the annexation to Brooklyn.

The last addition to Brooklyn territory by annexation before the work of the Legislature which has just adjourned was the annexation of the town of New Lots, embracing East New-York, in 1886. This became the Twenty-sixth Ward. Since that time the Twenty-seventh and Twenty-eighth wards have been carved out of the Eighteenth Ward. With the four towns consolidated with the city there will be thirty-two wards. Probably some of the existing ones will have to be divided in a few years.

Affred T. White, Commissioner of City Works, said yesterday in regard to the annexation of all the towns. "I sheerely hope that the Governor will sixn all the bills, nothwithstanding my acute realization of the increased burdens that the consolidation will impose upon the city departments.

the towns: 'I sheerely hope that the Governor will sign all the bills, nothwithstanding my acute realization of the increased burdens that the consolidation will impose upon the city departments. The postponement of the admission of Fatlands until 1896 will relieve the city from many if not all the embarrassments feared. The case which will arise when the last town becomes a portion of the city is one that has never come up since the constitutional provision limiting the city debt became 'a isw. The courts may hold that the county debt shall not count as part of the city debt in such an event. But it may be well to seek an amendment to the constitution to remove all doubt.' In regard to the effect of the union of the towns with the city upon the lines of the Brooklyn City Railroad which run out into the several districts, President Lewis said yesterday that the double fare in Flatbush was abolished when electricity was put on last year, so consolidation made no difference there. The bill annexing New-Utrecht would not go into effect until July I, and whether the extra fare could still be charged to Fort Hamilton he would leave to the counsel of the company to decide. Flatlands would not come into the city until 1896, so that the question there would not come up soon. Only three cents is charged for fare in that town. The company has no line running into Gravesend save the one to Bensonhurst, and only one fare is charged there.

READY FOR THE HORSE SHOW.

BROOKLYN PEOPLE WHO LOVE HORSES TO HAVE A TREAT THIS WEEK-A LARGE LIST OF ENTRIES.

Extensive preparations have been made for the second annual Horse Show at the house of the Brooklyn Riding and Driving Club, at Plaza Road and Vanderbilt-ave., this week. The show will open on Wednesday, May 2, and continue until Saturday night, being open both in the afternoons and evenings. The interest in the affair on the part of the fashionable people of the city is shown in the fact that the aggregate amount of bids for the boxes was \$12,000. The holders of the thirty-three boxes are J. R. Beard, Francis D. Beard, Theodore F. Miller, E. J. Knowlton, Howard Glob, J. C. Hoagland, F. M. Gregory, William N. Dykman Edward Annan, George H. COLONEL CODY AT HIS BROOKLYN CAMP. Colonel W. F. Cody (Buffalo Bill) resched his Wild West grounds at Thirty-ninth-st., South Brooklyn, on Friday, after a long trip through the Western on Friday, after a long trip through the Western country, where he has been purchasing horses for his entertainment and selecting Indians that will, by permission of the general Government, be an interesting part of the Wild West. On the same day that Colonel Cody arrived, a large number of cowboys, in charge of several hundred head of horses, also reached the grounds. During the week all the 600 members of the Wild West show will be in camp in South Brooklyn. The City of Berlin, which is expected here on Monday or Tuesday, will bring over the Russian Cossacks, the Bedouin Arabs, the French. English and German soldiers, in all a party of more than 100 horsemen, who are to take part in the entertainment, which will open on Saturday, May 12, and will continue at the same piace for six months, giving performances every afternoon and evening.

MRS. HENRY WARD BEECHER TO MOVE. Mrs. Beecher is about to move from No. 40 Orangest. to the Plymouth Flats, at No. 67 Orangest. Since the death of her husband she has lived practically alone in the house from which she is moving. Her children have repeatedly urged her to live with them, but she is unwilling to do so, preferring her

independent life alone. Her reason for moving is independent life alone. Her reason for moving is that she wants apartments at less rent. She said yesterday that she was unwilling to go away from the house where she had lived since 188, but there was no help for it. She had been comfortable and happy in her old home and she loped to be so in the new one. The house where she has lived is en the site which Mr. Beecher had selected a few months before he died to build a house upon. Mrs. Elecher engaged it when the foundations were laid. She will be just as near to Plymouth Church in her new home. Some of her friends have expressed anxiety in regard to her living in a house by herself, for a portion of the time she had no servant in the house at night, and they think she will not be so much alone in the apartments to which she is going if anything should happen. Mrs. Beecher is in her eighty-second year.

COAL FOR THE WATER-WORKS

ING IT HAULED AT A REDUCED RATE.

HOW CITY WORKS COMMISSIONER WHITE CAME TO SUGGEST THE PLAN WHICH HAS BEEN ACCEPTED BY THE BROOK-

LYN BOARD OF ALDERMEN.

Mayor Schleren has not yet approved the action of the Aldermen on last Monday in granting the application of the South Brooklyn Railroad and Terminal Company for permission to construct its road through the outskirts of the city as it was before the annexation of new territory, and he will not act entil he has given a public hearing on the subject, The feature of the resolutions adopted by the Aldernen which has attracted the greatest attention is the provision that the railroad company shall trans-port all the cool needed for use at the pumping stations of the Brooklyn water-works at the rate of 66 cents a ton. The price heretofore and now paid to the Long Island Railroad Company for hauling this coul is \$1 a ton.

It appears to be the general opinion that the city has made a good bargain in securing the hauling The natural increase in the last two years has of the great amount of coal which it needs at a iderable reduction in cost. It becoming known that the first suggestion of such an arrangement came from Alfred T. White, the Commissioner of City Works, a visit was made to Mr. White in order to ascertain the facts, and to learn his opinions regarding 'he proposed arrangement. Mr. White was found busily at work in his office, but courteously consented to explain his part in the transaction. Commissioner White requires his subordinates to devote all their time to their official inties, and he sets them a good example by doing the same thing himself.

"Yes," said Mr. White, with a smile, "I am entitled to whatever credit there may be in suggesting this arrangement in the interest of the city. It came about in this way: The last bill of the Long Island Railroad Company had just come in when the chairman of the Railroad Committee of the Board of Aldermen catled on me in reference to the Terminal Company's interference with our sew-ers and water pipes in building its depressed road. My attention had been particularly called to the My attention had been particularly attention and peen particularly of the peen particularly of the peen per the peen per the peen peen and that they charge the same rate to their customers, no matter what the distance. The haul to our Ridgewood pumping station is only eighteen or nineteen miles; it wouldn't be more than ten miles in a straight line, but they run their cars round by Jamaica and nearly double the distance.

cars round by Jamaica and hearly double the distance.

"I had felt from the time I came into the Depart-ment and learned of this charse that it was ex-cessive. But the Long Island Rallroad is not sub-fect to the Interstate law, and there is no way of having its charges reviewed. So, in talking with the chairman of the Rallroad Committee, I sug-gested that in addition to other compensation for the city from the Terminal Company, an attempt should be made to get our coal carted more cheaply. He liked the idea, and then the committee adopted it as the only compensation which the city should receive from the company.

never ran a coal road and can't say whether figure I suggested is low enough. But it is for the city; and I do not think it will be a be

it. The plan is that the company shall, at its own cost, construct a spur from its tracks to our pumping station, provided we will give it the right of way along our pipe-line conduit, then it will run its cars right into our sheds and unload the coal there. The unloading alone, I believe, is considered to be worth fifteen cents a ton."

"How much will the city save as the result of this arrangement?"

"Well, at the Ridgewood station, we burn, I should say, about 40,000 tons a year, and the saving will be \$16,000 a year at present. But this will increase of the consumption of water. And when the new road is extended, as it probably will be, it will carry all our coal, and the profit to the city will then be still larger. More than that, the competition between the two roads will have a tendency to reduce the rate still further."

"Then you are not under any obligation to pair ize the new company?"

"Not the least in the world. All we have done

"Then you are not under any obligation to pair ize the new company?"
"Not the least in the world. All we have done is to secure a maximum rate for coal transportation, and we shall get our work done by the company which will do it the cheapest. It seems to be a nice arrangement for the city, and my impression is that it will be a good thing for the company. It can hardly be said that the city will derive that amount of revenue from the company, but practically it comes to that; and it will go on forever, I suppose, for I never heard of a railroad company's charter expiring. Of course, I only suggested this as an addition to whatever compensation might be exacted from the company, and the neatness with which the city is to save this money pleases me greatly."

The freshness and strength were the most im-portant qualities to be looked after, and these were constantly considered. The same lymph had been ordered by the Chicago Board of Health in larger quantities than had been required in Brooklyn. The farm where the vaccine matter was produced had been carefully inspected by the sanitary engineer of the department, and he found the utmost care and cleanliness prevailing. vaccine lymph used in the public work of

THE PROTEST OF BROOKLYN WOMEN. REASONS WHY THEY OBJECT TO THE OBLIGA-

TION OF SUFFRAGE BEING IMPOSED ON THE SEX. The preamble and protest against woman suffrage adopted by Brooklyn women is herewith given in

full, and, with signatures, will be sent to the Constitutional Convention:

We, American women, citizens of the State of New-York, protest against the proposal to impose the obligation of suffrage upon the women of this State, for the following among other reasons:

1. Because suffrage is to be regarded, not as a privilege to be enjoyed, but as a duty to be performed.

privilege to be enjoyed, but as a duty to be performed.

2. Hecause hitherto the women of this State have enjoyed exemption from this burdensome duty, and no adequate reason has been assigned for depriving them of that immunity.

2. Because conferring suffrage upon the women who claim it would impose suffrage upon the many women who neither desire it as a privilege nor regard it as their duty.

4. Because the need of America is, not an increased quantity, but an improved quality, of the vote, and there is no adequate reason to believe that woman suffrage, by doubling the vote, will improve its quality.

5. Because the household, not the individual, is the unit of the State, and the vast majority of women are represented by household suffrage.

6. Because the women not so represented suffer no practical injustice which giving the suffrage will remedy.

6. Hecause the women not so the practical injustice which giving the suffrage will remetly.
7. Because equality in character does not imply similarity in function, and the duties and life of men and women are divinely ordered to be different in the State, as in the home.
8. Because the energies of women are engrossed by their present duties and interests, from which men cannot relieve them, and it is better for the community that they devote their present work than to divert them to new fields of activity.
9. Because political equality will deprive woman of special privileges hitherto accorded to her by law.
10. Because suffrage logically involves the holding of public office, and office-holding is inconsistent with the duties of most women.

This is signed by Mrs. William A. Punnam, Mrs. George White Field, Mrs. Lyman Abbott, Mrs. Thomas S. Moore, Mrs. Thomas E. Sullman, Mrs. Tunis G. Bergen Mrs. S. B. Chittenden, Mrs. Charles W. undertaking business in the Eastern District. In politics he was a stanch Republican, and deroice to the party and its principles. He was identified with several organizations, among which were 3. John's Council of the American Legion of Hobst the Knights and Ladies of the Golden Council Lodge, No. 208, F. and A. M.; the Kings Lodge dertakers' Association, and Crusaders' Lodge the Odd Fellowa. The funeral services will be held to-morrow, the burial being in Cypress Fills Conterns.

and the brewers are determined not to deal with the union.

The boycott which was placed some time ago on the Budweiser Brewing Company because of the discharge of six of the engaloyes will now, in all probability, be raised, as the question involved was not that of union wages or hours, but recognition of the union. The men have always received union wages, aithough they are mostly non-union men. J. George Grauer, the brewer at Ridgwood, where the strike is still on, yesterday afternoon informed Police Capitain Kitzer, of the Twentieth Precinct, that he feared that the strikers intended violence, and asked for police protection for his property. Many threats have been made by the strikers. Several officers were sent to keep guard over the brewery. DEATH OF JOSEPH BRYAN. Joseph Bryan, a well-known resident of the Eastern District, died yesterday at his residence, No. 333 Bedford-ave., after an iliness of a few weeks. Mr. Bryan was born in England seventy-four years ago, and came to this country at the age of twenty years. Since 1550 he carried on an
